MY HEART IS WITH THEE.
BY GEORGE D. PRENTICE.

When the breeze with a whisper,
Steals soft through the grove,
A sweet earnest whisper
Of music and love,
When its gentle caressings
Away charm each sigh,
And the still dews, like blessing,
Decend from the sky,
When a deep spell is lying
On a hill, vale and lea,

When stars like sky-blossoms
Above seem to blow,
And waves like young blossoms
Are swelling below,
When the voice of the river
Floats mournfully past,
And the forest's low shiver
Is borne on the blast,
When the wild tones are swelling
From earth, air and sea,
My warm heart is dwelling
Sweet spirit, with thee.

When the night clouds are riding
Like ghosts on the gale,
And the young moon is gliding
Sweet, lonely and pale,
When the ocean is sobbing,
In careless unrest,
And its great heart is throbbing
All wild in its breast,
When the strong wind is wrestling
With a willow and tree,
My warm heart is nestling,
Sweet spirit, to thee.

When the night clouds are riding
Like ghosts on the gale,
And the young moon is gliding
Sweet, lonely and pale,
When the ocean is sobbing,
In careless unrest,
And its great heart is throbbing
All wild in its breast,
When the strong wind is wrestling
With a willow and tree,
My warm heart is nestling,
Sweet spirit, to thee.

At this moment Jeff Jefferson, Bill Seavers, and Jim Byers entered, and of course their attention was called to Harper by his loud talking. They stepped up to him and said:
"Why, Jones, what is all this fuss about?"
This was more than Harper could stand. He leaped upon a seat:
"Now," said he, "my name ain't Jones and I can lick any feller that says it is."

XXXVTH CONGRESS--FIRST SES-

SION.

Tuesday's Proceedings.

WASHINGTON, June 5.

Senate.—Mr. Sumner presented the petition of Lewis Lappan and others of New York against the imprisonment of Thaddeus Hyatt; also a memorial of citizens of Massachusetts of African descent to the same effect. Referred to the Harper's Ferry Investigating Committee.

The Homas land grant was taken up. Mr. Bayard addressed the Senate in opposition.

After considerable debate, the bill was postponed by 32 yeas to 27 nays.

Messrs. Pugh and Latham voted with the Republicans and Mr. Kennedy with the Democrats. Messrs. Crittenden, Douglas and Clay were absent. The latter two paired off.

The army bill was taken up. Mr. Trumbull said that the effect of the vote would be to defeat the bill, and moved to postpone it and consider instead the Homas land grant bill. Negatived—23 to 29.

The consideration of the army bill was then proceeded with.

The amendment to pay \$1,600,000 interest to States on money advanced during the war of 1812 was debated at length and rejected—25 to 29.

An appropriation for the regiment of Texas volunteers was concurred in—23 to 18.

Mr. Hale offered an amendment limiting the pay of all officers of the army.

House.—Mr. Reynolds called up the Senate bill making provision for the return and support for a limited period of the recaptured Africans.

The committee on the judiciary proposed to amend by increasing the sum from \$100 to \$150 for their comfortable clothing, shelter, and provisions for a period not exceeding a year from the date of their landing in Africa, and also increasing the aggregate amount from \$200,000 to \$250,000.

The amendment of the Committee on the Judiciary was adopted.

The bill was passed—121 against 56. The Missouri contested election case discussed and the House adjourned.

The Storm.

CHICAGO, June 4.

A terrible tornado passed over eastern Iowa and northwestern Illinois last night. The telegraph lines west of the Mississippi river are all down and we are unable to learn how far West the storm extended and the damage done, which must be great.

At Clinton, Iowa, it commenced at 7:30 P. M., and although lasting but 2½ minutes, it caused more destruction to life and property than any similar storm known in this portion of country. The towns of Camanche, Iowa; and Albany, Illinois; on opposite sides of the river and five miles south of Clinton, were completely demolished. In the former place 32 dead bodies have already been taken from the ruins, and there is still a number that cannot be got out. In Albany five or six dead bodies were found with about 50 wounded—some seriously. We have not yet been able to obtain a list of the victims.

The citizens of Clinton and Fulton are doing everything for the relief of the sufferers.

From other towns on the route of the tornado, that can be reached by telegraph we learn that the destruction to life and property was equally great.

At Alton, Ill., the storm of Saturday last amounted to a tornado, and was attended by an immense destruction of property. Among the losers are the following:

Alton Democrat office, presses, engine and stock; loss \$8,000.

D. Simms, house broken up by a church steeple; loss \$1,800.

Methodist church \$3,000; Episcopal church and organ \$10,000; Martin & Bowl's carpenter shop \$400; James Bozaz's store \$300; German Catholic church \$9,000; C. Dimmock's house and stable \$800; house opposite, occupied by Mr. Spreen, \$1,000; Seth Sawyer's house \$500; Joseph Spray \$350; Thomas S. Coffey \$500.

The damage to other buildings and offices, as well as to fruit trees and shrubbery in all parts of the city, amounts to considerable. The total loss is probably not much short of \$200,000.

BOOTH & PARMENTER'S CELEBRATED Double Lock Stitch Sewing Machines, Patented August 16th, 1859.

THEY are unsurpassed by any other Machine ever invented, and sew with equal facility on all fabrics, from the finest silks, linens and muslins, to the coarsest, thickest, and heaviest osaburgs and kerseys, and combines all the late improvements so necessary to the perfection of the Sewing Machine. They will stitch, hem, fell, bind, tuck, gather, and excel any other Machine in embroidery.

They cannot get out of order except from gross carelessness.

The Double Lock Stitch Machine sews from two ordinary spools without the trouble of re-winding, and the sewing done by it is stronger than that done on any Shuttle Machine.

The general adaptability of Booth & Parmenter's Sewing Machine to all kinds of work fine and coarse, makes them a superior Machine for Families and Tailors.

Call and examine them at GEO. SHARP, JR., & Co., Sole Proprietors of the State, To whom all communications should be addressed.

Messrs. GEO. SHARP, JR., & Co.: Gentlemen—The "Booth & Parmenter Sewing Machine," I bought of you last March, has given entire satisfaction. I have sewed on all kinds of goods from the finest gauze to the coarsest Jeans and Tow Linen without any difficulty—consequently I can cheerfully recommend it to any lady wishing a simple and reliable Sewing Machine.

Very Respectfully, Mrs. HENRY CARPENTER. Hustonville, May 25, '60

Mess. GEO. SHARP, JR., & Co.: Gentlemen—The "Booth & Parmenter" Sewing Machine you sold me in April, has been in constant use ever since. I have sewed on Silk, Linen, Fine Cotton goods, and the coarsest Jeans, and it sews equally as well on one as the other. I am well pleased with it and think it is the machine for general family purposes.

Very Respectfully, Mrs. S. FREDERICK. Stanford, May 28, '60.

HAVING examined the "Booth & Parmenter" Sewing Machine, sold by Mess. Geo. SHARP, JR., & Co., I can safely say it is a very simple and reliable Machine, well adapted to all kinds of sewing, and not liable to get out of order.

THE TRIBUNE.

Danville:
FRIDAY, JUNE 8, 1860.
LOCAL.

A WORD ABOUT MONEY.—We need money badly to meet engagements made in reference to our new office. We hope it is only necessary now for those indebted to us, to be reminded of the fact. They will greatly favor us just now by prompt payment of their accounts, either by calling at our office, or by remittances by mail.

We are admirably prepared to do every variety of pamphlet printing in the best style—college and school catalogues, &c., &c. We have now some work of this kind in press, which we intend shall compare favorably with any specimens we have seen from abroad.

Hons. W. C. ANDERSON, L. W. POWELL and GREEN ADAMS, have our thanks for public documents.

We have received from our young friend BEN. J. MONTGOMERY, a package of late New Orleans papers, for which he will accept our acknowledgments.

We had the pleasure on Tuesday, of greeting our substantial friend, Col. R. B. BOWLER, of Cincinnati, who visited our town to attend the meeting of the Board of Directors of the Lexington and Danville Railroad Company. We have abundant reason to regard Col. B. as a most liberal hearted gentleman. His enterprise and public spirit is only equalled by his kindness of heart, and we shall ever feel grateful to him for the substantial manner in which that kindness manifested itself towards us.

Our office was enlivened on Wednesday by a visit from our genial friend, J. A. REYNOLDS, Esq., of Lexington, whose contributions under a *nom de plume* have been much read and admired. "Alf" is an excellent writer, and we shall be pleased to have him contribute frequently for our columns, which, by the way, he has promised to do.

RATIFICATION MEETING.—In another column will be found the proceedings of a large Bell and Everett ratification meeting held at Lancaster on Monday week. Let the example be followed throughout the State. When shall the meeting be held in Boyle?

The building of the new Reform Church, on its former site, we understand was put under contract on Saturday last, and will be built, the present season, upon a much admired design of Mr. J. R. Carrigan, of this place.

The Episcopal Church is also to be rebuilt and fitted up in a handsome style, this season, upon a plan drawn by Bowen & Miller, of St. Louis. Bids for building are now being received.

The re-building of the Second Presbyterian Church, we are informed, will not be put under contract till next year.

The iron front erected by Mr. G. W. WELSH, for his new three story building on the corner of Main and Third, is almost universally admired, and is one of the most handsome designs for a front we have ever seen. It is from the foundry of O. S. Snead, Louisville. We are glad to see that all the buildings in course of erection on Main street are being put up with attractive iron fronts, which will add greatly to the appearance both of the buildings and the town.

CARRIAGE MAKING.—We were conducted a few days since through the extensive Carriage establishment of Messrs. DENNIS & WALTON, on Second street, in this place, where we found every variety of vehicle—usually kept in such a house, and all strictly of home manufacture. The hands employed by Messrs. D. & W. will compare favorably, both in experience and reputation to those of any house in the west.

ANDERSON, who escaped from the county jail, at the same time with T. D. McGRATH, has been re-arrested, and brought back to his old quarters. He states that the escape was affected by means of a false key, which was in McGrath's possession.

LOUISVILLE HORSE FAIR.—A Fair for the exhibition of horse stock is to come off at Louisville, under the auspices of the South Western Agricultural Association, on the 14th, 15th, and 16th of this month. An advertisement giving the order of exhibition and the list of premiums will be found in our paper today. The premiums are exceedingly liberal, ranging from \$25 up to \$250.—There will doubtless be an unusual display of fine stock on this occasion, and we should like to see Central Kentucky represented by a good number of her extra animals.

The negro man, Jack Santa Fe, convicted at the last term of the Mercer Circuit Court, of committing a rape upon the person of a white girl in Anderson county, was executed near Harrodsburg on Friday last.

The storms of Saturday and Monday last were very destructive, both of life and property, in many parts of the West and South-west.

Many buildings were unroofed and much valuable timber destroyed in Lexington and Fayette and Jessamine counties, by the storm of Monday.

The St. Louis *News*, which was for Mr. Bates—indeed, the first paper that brought his name before the public for the Presidency, has announced that it will support the election of Bell and Everett.

Railroad Meeting.

Pursuant to a notice heretofore given, there was a meeting of the Directors of the Kentucky Central Railroad Company, held at the Sued House in this place, on Wednesday, the 6th inst. A committee heretofore appointed by the citizens of Boyle and adjoining counties, interested in the extension of the road, were present, and after a discussion of the condition of the road, its resources and prospects, and of the propositions upon which its extension is contemplated, much confidence was felt in the fairness and liberality of the terms offered by the present owners of the road, as well as great encouragement at the prospect of success in the undertaking.

We were much gratified to see many of our most influential, prudent, and reflecting citizens—men who are greatly interested in any project so deeply affecting the interests of the whole community,—taking an abiding interest in the matter, and they are so favorably impressed with the probability of the undertaking, as well as with the great benefits to be derived, not only by the public, but by individuals, who may become stockholders in the road.

We believe the spirit with which the enterprise is being renewed, is highly ominous of success. It has not been aroused by any of the appeals which create a feverish enthusiasm, which dies in a week or a month, but it is the result of a prudent and careful estimate of the reasonable advantages to be expected from the completion of the road upon the terms proposed.

A number of our citizens, we learn, have determined to take stock in the enterprise, and are quietly, but with the spirit of men personally interested in the matter, presenting its claims and advantages to others. This is the right and the best way to enlarge the interest now felt, and to cause the real merits of the enterprise to be properly appreciated.—We understand that active measures will soon be taken to raise the necessary amount of stock required for the completion of the road. And in the mean time we hope our citizens will reflect carefully upon their real interest in the matter, and if that is done, we feel sure that they will be so impressed, not only with the magnitude of this, when compared with other railroad enterprises, but of its great local advantages, as to induce that liberality which will ensure at a very early day the completion of the road.

[For the Kentucky Tribune.]

Etna Insurance Company.

In behalf of the Trustees of the Hustonville Academy, of Lincoln county, Ky., we publicly tender our thanks to the Etna Insurance Company for the very satisfactory adjustment and prompt payment of \$4,500, occasioned by the burning of Christian Academy, on the 26th of April, 1860. Through its most excellent State Agent, A. C. Ward, of Winchester, Ky., assisted by J. A. Lytle, agent at Stanford, our demands were met in the spirit of fairness and great liberality. Well may we repeat the sentiment of our Kentucky Legislature—"that Kentucky should be proud of such an institution as the Etna Insurance Company in our midst." Forty-one years experience, with the largest capital in the United States, and its most careful manner of operation, can but render the policy holders secure; and while managed by J. B. Bennett (the best business man trans-Alleghany) it must ever remain so. Often for the lack of these three great elements, Insurance Companies are passing off, leaving the insured minus the cash.

Look well to your interests, and obtain an Etna policy on your property in this most destructive age of burning.

His fine young Jack will stand the present season at our stable, immediately on the turnpike leading from Stanford to Crab Orchard, 3 miles from the former place, and will serve Jennets at \$25 to insure a foal in foal, the money to be paid when the fact is ascertained. Such Jennets as have been tried for several years and always proven barren, will be charged a reasonable fee, to pay us for our trouble with them, should they fail to get in foal. Great care taken to prevent accidents or escapes, but no liability should either occur. Grass furnished gratis for Jennets from a distance.

J. & E. H. ROBINSON.

Description and Pedigree.

JOHN J. CRITTENDEN will be 7 years this spring, full 15 1/2 hands high, color black, with a mealy nose. He was got by Black Sampson and out of a Maltese Jennet. He has taken several premiums, and has proved himself a sure foal-getter. The stock is so well known that it needs no further recommendation.

The Premium Trotting Horse, NORMAN,

WILL stand the season of 1860, at "Leeland," the farm of N. T. Lee, about two miles from Danville, on the turnpike leading from Danville to Harrodsburg, at \$20 the season, payable at the time the services are rendered or the mare removed—or \$30 to insure a mare in foal, payable as soon as the fact is ascertained or the mare parted with. Mares pastured at a reasonable price. Due attention will be given to prevent accidents, but no liability should any occur.

Description and Pedigree.

NORMAN is a beautiful brown, about 16 hands high. He was bred and raised in New

York. I had the honor to import him last fall, and there, also, he received the first premium—about twenty horses contending against him. I also exhibited him at Danville and Lancaster, taking two premiums at each place. Norman's sire was a Messenger horse, and the "Morse horse," his dam was by Jerri Highlander, grand dam, Hamlettonian.

N. T. LEE.

Murdoch has taken a good many premiums. He was exhibited at Louisville and United States Fair, where he received the premium. Romulus dam, Kate Brown, is the finest mare in Kentucky or any other State, having taken two premiums at the United States Fair, one in her own ring, and the Sweepstakes of all ages. She has about forty premiums at the different fairs. Romulus about fourteen premiums. He was exhibited at the United States Fair, where he was awarded the second premium as a colt. His grand dam has produced nine colts. Romulus is a blood bay, 16 hands high. NELSON T. LEE, Lincoln co., April 13, '60, 1f
